

Dear followers of AIDASCO,

In an era defined by rapid technological advancements and complex global challenges, the value of **free thought has never been more essential**. The ability to think independently, question the status quo, and explore unconventional ideas is the driving force behind innovation and progress. In the community, where breakthroughs often emerge from the fringes of established norms, an open mind without constraint is the foundation of freedom.

This issue of AIDASCO Reviews celebrates the spirit of free thought by highlighting open-mindedness that pushes boundaries and challenges conventional thinking.

The articles featured in this Volume exemplify how unshackled creativity and intellectual curiosity lead to solutions that address current issues and pave the way for future advancements.

AIDASCO, as an NGO, has expanded its impact by supporting initiatives that align with our mission to promote education, sustainable development, and social innovation. Through various projects and collaborations, we have empowered communities, encouraged the exchange of ideas, and driven meaningful changes. The progress of both the journal and the NGO underscores the power of free thought in transforming ideas into action and in leading to progressive solutions that benefit society as a whole.

As we continue to navigate the complexities of the modern world, we must foster an environment where free thought is encouraged and valued. By embracing diverse perspectives and nurturing innovative thinking, we can unlock the potential for transformative solutions that drive societal progress.

Let us continue to champion free thought, not just as a concept but as a practice that fuels the relentless pursuit of knowledge and the quest for a better future.

Regards from the AIDASCO team,

Sanja J. Armaković, Stevan Armaković, and Maria M. Savanović
